

OROM
CRYPTOCURRENCY EXCHANGE

The Whitepaper

Cryptocurrency Exchange optimized for high-throughput, uptime 99,9%, deep liquidity pool, low latency, high scalability and advanced multi-tiered security.

Introduction

We're excited to announce our new digital asset exchange – OROM. Blockchain is a modern technology which is changing the world economy. It is a distributed database model that acts as a book to store and manage transactions. In other words, blockchain is a chain of blocks containing information. It is a public ledger utterly open to everyone. Instead of using a central chain management element, blockchains use peer-to-peer networks which anyone can join.

Blockchain technology brings greater transparency, enhanced security, improved traceability, increased efficiency, and speed.

Cryptocurrency transactions, which are based on blockchain technology, affect the economy on a global scale. Those allow instant, secure, anonymous payments all over the world and help to prevent corruption and money laundering.

Cryptocurrency payments are transparent, independent from third parties (such as banks) and allow to significantly reduce transaction costs. Cryptocurrencies' impact on present and future world is unquestionable, as they are going to drastically change various industries, including medicine, economy, politics, law, and many more.

Cryptocurrency exchanges - this is a fundamental tool in the present world, where you can buy/sell and earn on transactions with cryptocurrencies. It is proved by the number of cryptocurrency exchanges and their importance nowadays. The trading volume per day is 31 billion USD. The average 0.5% commission allows exchanges to earn tremendous money.

The more exchanges are created, the less manipulation can appear on the market. The competition between them also contributes to the reduction of commissions, the promotion of market-relevant projects and the improvement of the overall picture on the market. We want to introduce you to the new cryptocurrency exchange platform Orom.

About us

The screenshot displays the OROM trading platform interface. At the top, there's a navigation bar with 'Exchange', 'The Cube', 'Platform', 'Support', 'Competition', 'Funds', 'Orders', 'English', and 'Home'. Below this, a sidebar lists various altcoins with their last prices and percentage changes. The main area features a 'BTC/USDT Demo' section with a candlestick chart showing price movement over time. Below the chart are 'LIMIT', 'MARKET', and 'STOP-LIMIT' order entry forms for both buying and selling BTC. On the right, an 'ORDER BOOK' and 'TRADE HISTORY' table are visible, showing current market orders and recent trades.

The Cube Part 1

HOW WORKS THE CUBE?

CURRENT CUBE:

- Current Cube:** cryptocurrency that is currently in "Cube".
- Actual price:** current price of the cryptocurrency.
- Balance:** show your balance in the cryptocurrency.
- Cube cost:** this is the cost to place your Cube. You can pay with OROM token too.
- Maximum Cube:** the maximum Cube that you can place for each verified account.

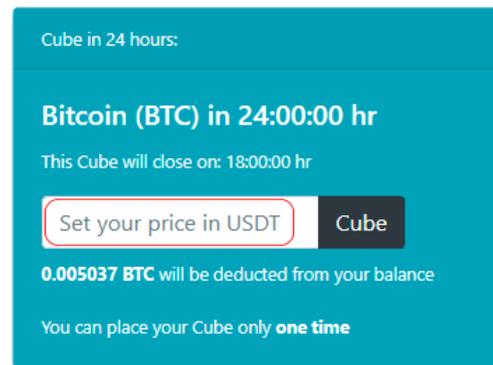

CUBE IN 24 HOURS:

Test your trading skills!

Watch the chart of the coin that's on "Cube", do your analysis, and set the price of the coin in 24 hours!

From the opening you have 18 hours to set your Cube price. Six hours before the Cube ends, the system won't accept any new income anymore. All cubes are in USDT. You can pay with OROM token too.

Example:

- Current Cube is Bitcoin (BTC).
- You set your Cube with a value of 3950 USDT. You are assuming that when the Cube ends, the price of the BTC will be 3950 USDT.
- When the Cube ends (counter in 00:00:00), the system will take the exact price of BTC in USDT and that would be the "Cube Result".
- **The 20 closest positions to the Cube Result will be the winners.** Inside a winner position can be more than one user, this is because someone can put the same Cube value.

Let's put a practical case.

Your Cube is 3950 USDT and when it ends, the Cube result is 3955 USDT. After a couple of minutes our system inform that your Cube is the closest to the "Cube result", that means that you are in the first position. According to the reward distribution, you won 50% of the entire pool. If the Cube's cost was 0.005037 BTC and we had 1250 users who have participated, that gives a total of 6.29625 BTC for the entire pool, and the 50% is 3.14812 BTC, **that means that you have won 3.14 BTC!**

The Cube Part 2

CUBE POSITION:

Your cube is: shows your Cube value. You are assuming that when the Cube ends, that would be the price of the coin.

Cube result: when the Cube ends (counter in 00:00:00), the system will take the exact price of the coin and will be reflected here.

Your position: it shows how closes you were from the "Cube result"

Your reward: if you are between the 1st and 20th position, you won a certain percent of the entire pool.

Cube position:	
Your Cube is:	3924.52
You have placed your Cube!	
Cube result:	NOT FINISHED
Your position:	NOT FINISHED
Your reward:	NOT FINISHED

Terms:

- 1- You can place between 1 and 3 cubes per verified account. There are limited amounts of Cube.
- 2- Users of the following countries cannot participate: Republic of China, Hong Kong China, Macau China, Cuba, Iran, North Korea, Crimea, Sudan, Malaysia, Syria, USA [including all USA territories like Puerto Rico, American Samoa, Guam, Northern Mariana Island, and the US Virgin Islands (St. Croix, St. John and St. Thomas)], Bangladesh, Bolivia, Ecuador, and Kyrgyzstan.
- 3- If another user establishes the same Cube as you, and you are in one of the winning positions, both users will split the prize.
For example: the second position receives 15% of the entire pool, and there are two users with the same Cube that are in the second position, that means that the 15% will be split it into 7.5% and 7.5% per user.
- 4- Rewards will be issued within 12 hours after the Cube ends.
- 5- You can participate in many Cubes as you want.
- 6- Cubes will be taking place between 3 and 5 days. The frequency will be established by Orom Team.
- 7- Orom reserves the right to cancel or amend the Cube or rules at our sole discretion.

Example of a Trading Competition

XXXX TRADING COMPETITION (DEMO)

15,000,000 XXXX TO GIVE AWAY!

Time: MM/DD/YYYY 00:00:00 UTC to MM/DD/YYYY 00:00:00 UTC

To celebrate the launch of Orom Exchange, we will give away to our traders around the globe a total of 15,000,000 XXXX, this is a competition that we are carrying out together with the XXXXX team.

Deposits Promotion: 5,000,000 XXXXX in rewards!

All users of Orom Exchange with net deposits (deposits minus withdrawals) of over 100,000 XXXX made during the activity period will split a pool of 5,000,000 XXXX.

Trading Competition: 10,000,000 XXXX to win!

The top 60 traders will share a pool of 10,000,000 XXXX based on the proportion of their own XXXX trading volume against the total trading volume of the top 60 traders during the competition time. This includes buys and sells operations across any XXXX trading pairs.

How to calculate the reward:

Rewards for each user in the top 60 = (Each user's total trading volume / Top 60 users' total trading volume) × 10,000,000 XXXX

OROM TOKEN INFORMATION:

- **Type:** ERC-20 (Ethereum)
- **Max-supply:** 300.000.000
- **Decimals:** 18
- **Contract:** <https://etherscan.io/token/0xe3b05c42667de42ca4a4ea1e9682eb590b6a65d1>

OROM tokens work in a similar way as tokens on other exchanges but they have additional value for the users of the exchange. Owners of the tokens will reduce the transaction fees and give the token holders the right to receive a part of the profit made by the company.

OROM tokens are implemented based on the most popular and advanced ERC20 protocol. The base for the tokens is the Ethereum blockchain with is relatively fast compared to alternatives. Thanks to that technology we are able to implement the token for all the payments processes and all of our sites without limitations.

The main goal of the token will be to provide the possibility to freely trade and exchange tokens between users, our services and transfers between traders and other instruments. Holders of the OROM tokens will be able to trade OROM in pairs with all other currencies available on our market.

Reserved funds.

We left aside 20.000.000 of OROM created as Reserve Tokens which we will keep on a transparent, public address. One of our core principles is the transparency of our company. We will hold those tokens as long as possible and least for 3 years. However, if at some point it seems advisable for the Orom or new project stage will require us to sell some tokens, some of these may be ordered in an auction or any other form that cover the capital needs of the exchange. For now, and near future, these OROM will not be used in any way. We feel it is prudent to have some backup if needed.

Risk Disclaimer

TRADING AND FINANCING TRADES IN CRYPTOCURRENCY ENTAILS CERTAIN RISKS. THIS RISK DISCLOSURE STATEMENT CANNOT AND DOES NOT DISCLOSE ALL RISKS AND OTHER ASPECTS INVOLVED IN HOLDING, TRADING, OR ENGAGING IN FINANCING OR FINANCED TRANSACTIONS IN CRYPTOCURRENCY.

The market for cryptocurrency is still new and uncertain. No-one should have funds invested in cryptocurrency or speculate in cryptocurrency that she is not prepared to lose entirely. Whether the market for one or more cryptocurrency will move up or down, or whether a particular cryptocurrency will lose all or substantially all of its value, is unknown. This applies both to traders that are going long and to traders that are shorting the market. Participants should be cautious about holding cryptocurrency.

Markets for cryptocurrency have varying degrees of liquidity. Some are quite liquid while others may be thinner. Thin markets can amplify volatility. There is never a guarantee that there will be an active market for one to sell, buy, or trade cryptocurrency or products derived from or ancillary to them. Furthermore, any market for cryptocurrency may abruptly appear and vanish.

Legal Risk: The legal status of certain cryptocurrency may be uncertain. This can mean that the legality of holding or trading them is not always clear. Whether and how one or more cryptocurrency constitute property, or assets, or rights of any kind may also seem unclear. Participants are responsible for knowing and understanding how cryptocurrency will be addressed, regulated, and taxed under applicable law. There is a risk that in some jurisdiction's cryptocurrency might be considered to be a security, or that it might be considered to be a security in the future. Orom does not give warranties or guarantees that any cryptocurrency is not a security in all jurisdictions. You are bound to check if acquisition and disposal of cryptocurrency is legal in his jurisdiction, you undertake not to use cryptocurrency should their use not be legal in the relevant jurisdiction. If You establish that the use of cryptocurrency is not legal in your jurisdiction, you should not use cryptocurrencies, not acquire them and should immediately stop using or possessing them if such case arises.

Exchange Risk: Having cryptocurrency on deposit or with any third party in a custodial relationship has attendant risks. These risks include security breaches, risk of contractual breach, and risk of loss. Participants should be wary of allowing third parties to hold their property for any reason.

You acknowledge that Orom is not responsible for any losses or damages of any kind arising either directly or indirectly from a withdrawal of funds from your account by a third party due to the loss of credentials.

You acknowledge that Orom is not responsible for any losses or damages of any kind arising either directly or indirectly from the sending of cryptocurrency to the wrong wallet address during the withdrawal of funds from their Orom account. You acknowledge that any cryptocurrency may be lost if sent to the wrong address. You accept that Orom is not responsible for any losses or damages whatsoever arising directly or indirectly due to any such error.

Trading Risk: In addition to liquidity risks, values in any digital token marketplace are volatile and can shift quickly. Participants in any cryptocurrency market are warned that they should pay close attention to their position and holdings, and how they may be impacted by sudden and adverse shifts in trading and other market activities.

Risks Associated with Financing Activities: When you finance a purchase or sale of cryptocurrency on a peer-to-peer basis, you run the risk of losing your provided financing. Similarly, when you accept financing to enter a trading agreement, you accept the risk of not being able to repay that financing (e.g., if the market price of the cryptocurrency you purchased with the financing falls). Participants should know all of the terms of any contracts they enter and how their trading strategies and other market and risk factors can affect their financing obligations. You accept and acknowledge that Orom shall have, and maintains, the right to refuse orders to establish new or larger positions or to buy or sell Instruments.

Internet risks: You acknowledge that there are risks associated with using the cryptocurrency including, but not limited to, the failure of hardware, software, and Internet connections.

You acknowledge that Orom shall not be responsible for any communication failures, disruptions, errors, distortions or delays. You may experience when using the Website and cryptocurrency, howsoever caused.
